Parents and guardians will now be kept in the loop with school safety news. CrisisGo's app allows you to connect with safety message groups from our school district and school buildings. If an emergency occurs, you will be able to receive updates from the school.

CrisisGo's safety platform will allow our school to increase safety standards through tools that provide advanced emergency notifications, streamline incident and bully reporting, improve incident response, grant easy access to emergency procedures, and spread safety awareness.

Follow the directions to the left to download the app!
